## What's Happening Within ViskoTeepak:

Dustin Hembrook-  
Northern Midwest U.S.  
Business Manager

Learn more  
about our team

# Dustin Hembrook - United States Business Manager.

Dustin Hembrook has spent his adult career wearing many different hats in the food industry. From participating in and managing operational departments to leading the Logistical Network & Supply Chain, Dustin has experience in many areas. In September 2018, Dustin decided to join the ViskoTeepak team to fill the Business Manager position for the Northern Midwest territory in the U.S.

## Building Relationships

Dustin says, “Throughout the last three years, my focus has been on further building relationships with our legacy partners while helping to cultivate new relationships to support our long-term growth!” He continues on to say, “It has been a pleasure to promote our brand while coinciding with our partner’s successes. Having the support of our team & leadership has provided me with the tools to be successful”.

## Experience as a ViskoTeepaker

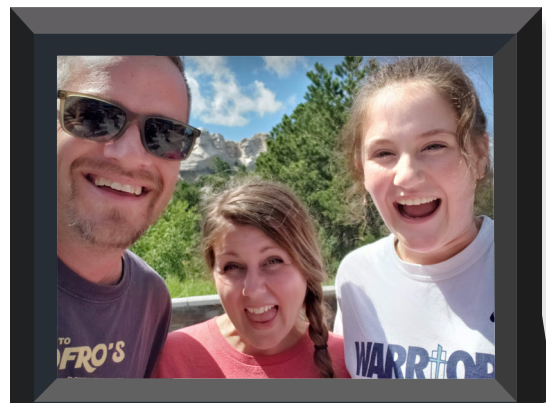

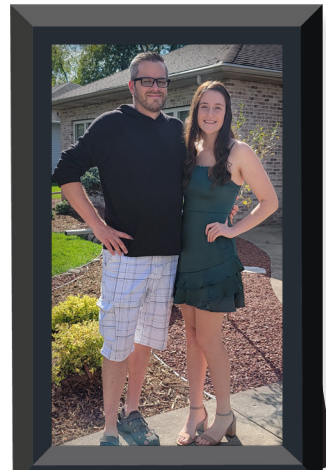

“Working for a company that always falls back to our internal values of Trust - Ambition - Fun resonates with me. Larger corporations tend to talk the talk but not walk the walk. It is refreshing that our leadership and team embody this mindset. A mindset like this is very evident in our new Hearts & Minds campaign. I have a great deal of comfort in knowing that I have the support of ViskoTeepak, and we as a team can overcome any challenges.”

## Work-Life balance

“Given my lifestyle change from working five minutes from home, there has been some acclimation to constant travel. As my daughter gains her independence I look forward to the next chapter in life. It will be fun to regain some personal time with my wife. We recently acquired some kayaks and look forward to some summer trips once the weather breaks. Outside of that, I will continue to donate to my local golf courses and leave a bunch ViskoTeepak balls in my wake!” says Dustin.

Golf is not the only sport catching Dustin’s interests. Basketball also lies close to his heart,

especially when his daughter plays. She is 16 years old and participating in basketball which he loves to attend whenever possible.
