VISKO EEPAK HEALTH CHALLENGE

WINNER: SJUUL DONDEERS

SJUUL DONDEERS:

LOMMEL'S TEAM 5 COORDINATOR
WINS TRIP TO BRNO PLANT!

This past May, ViskoTeepak hosted a six-week Health Challenge to encourage employees on their journey to a healthier lifestyle. Participants engaged in various activities and acts of kindness, earning points to compete for prizes—the top prize being a trip to another ViskoTeepak plant. Many ViskoTeepakers participated, but only one winner could be crowned: Sjuul Donders.

Sjuul Donders' trip to Brno!

We are excited to announce the winner of the Health Challenge top prize: Sjuul Donders! Along with earning bragging rights as the 2024 Health Challenge champion, Sjuul received an all-expenses-paid trip to Brno, complete with a plant tour and the opportunity to explore the city. Read more about his experience in his own words below.

Allow me to introduce myself. My name is Sjuul Donders, and I'm 50 years old. I have been working at ViskoTeepak Lommel since 2013, and for the past three years, I've been a coordinator in Team 5.

I enjoy working at ViskoTeepak because there are always new challenges to tackle. I particularly appreciate the problem-solving approach and collaborating with the entire team to find improvements. I want to thank the company for the opportunity to join this educational trip to Brno, Czech Republic. It was an excellent chance for me as an operator/coordinator to see what happens to our product once it leaves our plant.

I felt very welcome in Brno, both by the staff there and by the Plant Director, Total Quality Manager, and Supply Chain Manager of the Lommel plant. Everyone took the time to thoroughly explain the processes and challenges in detail.

Seeing firsthand the challenges they face in Brno made it much clearer where we, in Lommel, can focus on improving our own operations. We were given a tour of the Innovation Center, the Wienie-Pak shirring, and the Fibrous and Printing areas.

In addition to the educational aspects, the stay was also very enjoyable. The hospitality in Brno is something I will always remember. I even had the opportunity to take a sightseeing tour and explore the beautiful, historic city. In a short time, I visited attractions like City Hall, the Cathedral, the Supreme Court, and the National Theater.

Brno places a strong emphasis on culture, relaxation, and social connections, which I experienced firsthand during a delightful dinner with the team.

Overall, it was an amazing experience, and one I wouldn't have wanted to miss.

BRNO, CZECH REPUBLIC

Always around
