
PARTNER DAYS: PUTTING TEAMWORK INTO PRACTICE

In 2012, ViskoTeepak introduced the concept of Partner Days, a unique event where we connect with our partners from across the globe. Traditionally, these gatherings were three-day events featuring presentations, discussions, and opportunities to enjoy fun activities together.

This year, based on valuable feedback, we recognized the importance of dedicating more time to smaller group discussions. To address this and tailor the program to the needs of different regions, we brought together a diverse team of salespeople, specialists, and ViskoTeepak Group Management to host events in Europe, the Americas, and Asia. Each event was tailored to its region's needs while following a consistent overarching structure.

During those Partner Days, we not only shared our latest developments, achievements, and challenges at ViskoTeepak but also actively listened to and learned from our partners' perspectives and experiences. These insights are invaluable to us and help strengthen our collaboration, fostering a deeper sense of partnership.

As the saying goes, "A picture is worth a thousand words." So, we'll let these images tell the story, capturing memorable moments from Milan (Europe), Miami (The Americas), and Bangkok (Asia).
